

Guru Krish

Director — Enterprise AI Transformation, Governance & Security

gurukrish81@gmail.com · 512-426-1410 · Austin, TX · [linkedin.com/in/gurukrish](https://www.linkedin.com/in/gurukrish) · gurukrish.org · U.S. Citizen
ex-Google · ex-Amazon

Professional Summary

Director-level leader who has spent 18 years solving one problem: how do you make AI and data systems trustworthy enough for enterprises to actually adopt them at scale. Built and deployed governance frameworks across 150+ business units at Google and Amazon, enabling \$700M+ in measurable business impact. Architected LLM-based governance pipelines on AWS Bedrock that cut data access resolution from 7 weeks to 1 week. Designed Risk Inspector — the mandatory governance platform for Google's global third-party ecosystem — reducing partner onboarding from 150 days to 10 hours. Now codifying that experience into Trust by Design, a published governance framework for safe enterprise AI adoption. Experienced in NIST AI RMF, GDPR, HIPAA, EU AI Act, and translating regulatory complexity into engineering controls that stick.

Experience

Founder — Trust by Design, Independent AI Transformation & Governance, Austin, TX, Jan 2026 – Present

- Published Trust by Design — a practical governance framework for safe enterprise AI adoption, covering risk tiering, agentic AI threat modeling, guardrail architecture, and 30-day implementation path. Available at gurukrish.org/trust-by-design.html
- Developing reusable enterprise control architectures for LLM and agentic AI deployment — including prompt injection defense, PII filtering, output validation, and evaluation frameworks. Portfolio: gurukrish.org
- Advising on enterprise AI transformation strategy — operating models, platform architecture, and governance frameworks for organizations scaling AI programs from early traction to enterprise deployment. Portfolio: gurukrish.org

Oracle — Security CTO, Senior Principal TPM, Role Eliminated Before Start, Austin, TX, Offer: Jan 2026

- Cleared Senior Principal TPM interview process and received verbal offer in January 2026. Asked to wait until May 2026 for headcount approval. Role was eliminated in April 2026 before official start date due to org restructuring.

Amazon — Security Data Intelligence, Senior Technical Program Manager, Austin, TX, June 2024 – Oct 2025

- Defined and owned enterprise security intelligence strategy — standardized risk model adopted by 70%+ of engineering teams, reducing repeat vulnerabilities 40% and improving executive visibility into risk posture.
- Architected and operationalized LLM-based governance system (AWS Bedrock) — guardrails for input validation, output filtering, and risk-tiered controls. Classified 2,500+ access requests; resolution time from 7 weeks to 1 week.

Google — AI/ML Strategy (Corporate Engineering), Senior Technical Program Manager, Austin, TX, Jan 2023 – Mar 2024

- Served as trusted technology advisor to senior leadership — translating ambiguous AI problem spaces into executive-ready decision insights, establishing a principle-based evaluation framework (intake criteria, risk tiering, LLM reuse playbook) adopted across 50+ programs and 14 corporate verticals.
- Built financial impact model in partnership with Finance — adopted across 30 AI programs representing \$30M–\$50M in investment, enabling structured prioritization and reprioritization of 5 programs to improve portfolio alignment and ROI.
- Led executive AI/ML SteerCo and QBR forums with 20+ Directors and SVPs — improving decision velocity for senior leaders on AI priorities, risks, and roadmap alignment against 2024 OKRs.

Google — HR Engineering (People & Culture), Senior Technical Program Manager, Austin, TX, Nov 2021 – July 2023

- Led enterprise HR platform transformation supporting ~180K employees — driving delivery across 20 cross-functional teams with 95% on-time delivery through operating model redesign, execution rigor, and stakeholder alignment.
- Reduced security vulnerabilities by 40% and improved manager efficiency 25% through a PoC-driven redesign of access provisioning and identity workflows.
- Saved 1,000+ hours annually by implementing automation and AI-assisted capabilities across security workflows in collaboration with product, engineering, and privacy teams.

Google — 3P Security & Privacy, Senior Technical Program Manager, Austin, TX, Nov 2019 – Feb 2022

- Defined and scaled enterprise third-party security & privacy governance strategy — identifying systemic control gaps and establishing 12+ enterprise security and compliance controls. Designed and launched Risk Inspector, a global governance platform

across 150+ business units — reducing onboarding from 150 days to 10 hours, unlocking \$500M+ in partner ecosystem value, and eliminating 3,700+ licenses.

- Implemented and scaled regulatory governance frameworks (NIST, GDPR, HIPAA, CCPA) across high-stakes partner integrations — driving adoption of encryption, MFA, access controls, and data lifecycle standards at scale.
- Partnered with external penetration testing teams to interpret findings and drive 90% reduction in identified vulnerabilities across 10+ product areas through coordinated risk prioritization and cross-functional execution.

Google – HR Systems, Senior Technical Program Manager, *Austin, TX, Aug 2018 – Apr 2020*

- Directed modernization of internal HR and finance workflow systems used by ~3,500 users supporting 180K employees — consolidated 100+ tools into unified Salesforce platform, migrating 76% of use cases within the first year with HIPAA-compliant data handling.
- Enabled \$200M+ Salesforce platform investment by defining system strategy, exit roadmap, and required privacy and engineering controls for safe handling of Google data.
- Led delivery across global teams (50+ engineers, 15 vendors) — reducing vendor costs by \$1.4M through optimized sourcing and delivery models.

Google – Attribution, Technical Program Manager, *Mountain View, California, May 2014 – Aug 2018*

- Scaled Attribution 360 platform across Ads and Analytics — increased adoption 20%, reduced customer onboarding from 6 months to 12 days, delivered \$500K+ in cost savings through workflow standardization and release management.

Early Career Leadership Experience, Austin, TX (2007 – 2014)

- **Engineering Manager, Adometry (Aug 2013 – May 2014)**: Led a frontend engineering team supporting attribution, optimization, and reporting platforms; improved system reliability and large-scale data validation.
- **Senior Manager, QA / Release Engineering, Rodan + Fields (Feb 2013 – Aug 2013)**: Built and scaled global QA teams, implementing agile testing and release strategies across eCommerce platforms.
- **QA Manager / Scrum Master, Affiniscape (May 2007 – Feb 2013)**: Built and managed distributed QA and release engineering teams across US, India, Ukraine, and Costa Rica — hired, developed and led engineers across multiple timezones in a high-growth SaaS environment.

Technical & Domain Expertise

- **AI Governance & Security**: Responsible AI & Model Governance (NIST AI RMF), Security & Privacy (NIST CSF, GDPR, HIPAA, PCI-DSS, SOX), Identity & Access Governance, Enterprise Risk Management, Regulatory Compliance
- **AI Architecture & Platforms**: LLM Systems & Guardrails (AWS Bedrock, Vertex AI), Prompt Engineering, n8n Orchestration, AI Architecture (risk controls, governance), Python, SQL/NoSQL, AWS & GCP (BigQuery, Pub/Sub, Dataflow), APIs & Integrations
- **Leadership & Execution**: Enterprise Program Leadership (Director/Principal scope), Operating Model Design, Executive Decision Support, Org Structure & Hiring Strategy, Cross-Org Alignment, Agile Delivery

Training and Certifications

- **AI & Governance**: Responsible AI & AI Governance, Generative AI & LLM Systems Fundamentals, NIST AI RMF
- **Privacy & Security**: CIPT – Privacy in Technology (IAPP), AIGP – AI Governance Professional (In Progress)
- **Cloud & Platforms**: Google Cloud Digital Leader, Data Engineer – GCP, Salesforce Certified Administrator

Leadership & Impact

- Founder, Austin Cricket Association — scaled to 8 teams.
- Board Director, Central Texas Cricket League — supporting 50+ teams.
- Mentorship: Coached 100+ professionals on career growth and leadership.

Education

- **M.S.**, Electrical Engineering — Oklahoma State University, Stillwater, Oklahoma.
- **B.E.**, Electronics and Instrumentation Engineering — Annamalai University, India.
